

TEL-A-Greeter™ 204

Call Screening • After Hours Answering • Movie & Attraction Times

Nel-Tech Labs Digital Messaging System

The Tel-A-Greeter™ 204 is an advanced four-line telephone messaging system designed to provide both call answering and audio message play. Each unit has four separate and independent lines, each of which can be configured to provide the same or different messages during the call.

When a call is received, the unit answers the call on the programmed amount of rings, plays the message assigned to that line and then hangs up.

Message recording and system programming functions are accessed locally by using a standard touch-tone telephone. Options such as the amount of rings before the unit answers and delay before disconnect all can be remotely programmed.

Some phone systems can be programmed to use the Tel-A-Greeter as a pre-announcer before a live operator answers the call. In this type of operation before the Tel-A-Greeter disconnects the call the phone system would be programmed to seize control of the line.

The Tel-A-Greeter 204 list of features includes:

- 3.5KHz bandwidth
- 8 minutes of message storage
- 4-line/channel capability
- Call-Answering Modes
- Flash memory - no battery backup needed
- Remote and local recording
- Independent LED line status indicators
- Password security
- Durable plastic case construction
- 5-year parts and labor warranty
- Manufactured in the USA

Each Tel-A-Greeter 204 is built to exacting quality standards using state-of-the-art SMT (surface mount) assembly for outstanding reliability and years of dependable service.

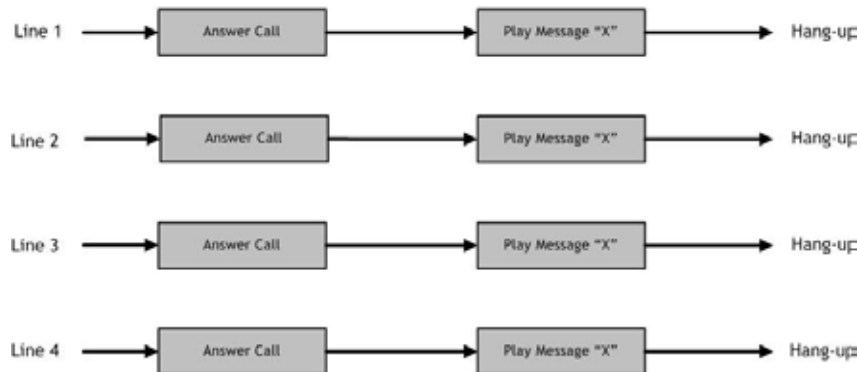

Specifications

Technical

Encoding μ Law
Frequency Response ... 300Hz to 3.5KHz
Sample Rate 64Kbps
Signal-to-Noise >50dB
Memory Type High-density FLASH
Memory Capacity 8 minutes
Message Capacity 4
Number of Lines..... 4
Message Loading Local or remote telephone

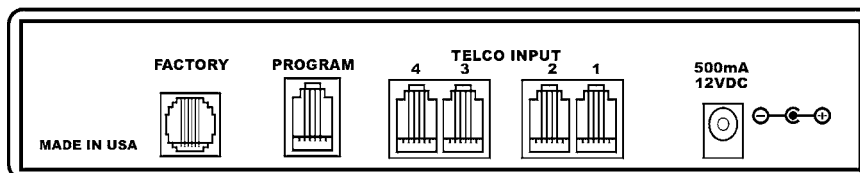

Message Playback Triggered (Call-Answering mode)
Required Line..... Balanced line tip & ring
90 volt ring
loop start
Power 12VDC @ 500mA
Audio Output Telco jack (RJ-11)
Size 1.80" x 8.30" x 9.00" (H x W x D)
Color Black
Shipping Weight 2 pounds

Message Flow

Message "X" can be played different for each line or they all can play the same message.
